EX-GOV. BLEASE INVITED TO GOVERNORS' CONFERENCE

Columbia, Dec. 1.—Former Governor Blease is in receipt of a letter from Hon. M. C. Riley, secretary of the governor's conference, in which Mr. Riley states:

"The members of the executive committee have called a meeting of the governor's conference, to be held at Washington, D. C., December 14-16. They direct me to notify you of these dates and to extend an urgent invitation to you to attend and participate in the program. We have promise of a well attended and successful meeting."

In his reply Mr. Blease has expressed an intention of being present, and says that he will be glad to be of any service within his power to aid in the success of the meeting.

ONLY 400 TAXICABS ARE LEFT IN BERLIN

Berlin, Dec. 1.—Of the 3,600 taxicabs which the German capital had when the war broke out, only about 400 are left, and they are seldom seen on the streets, as only public officials in the discharge of their duty, physicians, diplomats and newspaper men are permitted to use them.

The auto cabs may also be used for funerals, but is strictly forbidden to drive to a concert, theater, restaurant or any other place of amusement in any kind of a motor vehicle. Even the women of the wealthiest and most aristocratic circles have to ride in the street cars. About 60 per cent of the taxis are driven by female chauffeurs and the others by elderly men.

WONDERFUL MINERAL MYSTERIES STRANGE POTENCY

Long Hidden Secrets of Nature Now Uncovered.

Everyone knows, or has heard, of the mysterious properties of radium and the amazing things that scientists are accomplishing with this wonderful mineral light that has been hidden from the world for centuries. Now is this radium the only marvelous mineral alleviative that has been discovered in late years.

At Hickory, Miss., a man owned a piece of land through which ran a little stream of strange, brown, pungent water. Every neighbor knew of this stream and its source, but no one ever expected to see it become instrumental in the discovery of a mineral which would pass in healing power every known drug in the treatment of Pellagra, Indigestion, Rheumatism, Stomach and Blood Diseases and Nervous Disorders.

An old darkey was hired to ditch and drain this land so it could be cultivated. This old darkey was a mass of sores and was so rheumatic that he could only work occasionally. He had to stand in this water. His feet and hands were wet by it day after day. In a few days he marvelled to see his sores getting better and his rheumatic pains less severe. By the time the ditch was finished the darkey was a well man. The news spread like wild fire. It was looked upon as a miracle.

The mineral through which this water ran was analyzed and found to contain nine mineral acids of startling potency. A strong solution was extracted from the mineral and found to possess marvelous curative powers. The preparation has been put on the market under the name of Sulfero-Sol, meaning Sulphur-Iron Solution.

The most remarkable eradication of disease has followed the introduction of this marvelous remedy everywhere.

MORE WORLD WARS COMING, BECK PREDICTS

New York, Dec. 1.—The present European war is "only the beginning of a series of titanic conflicts," James M. Beck predicted at the banquet of the Fifth Avenue association here.

He added: "The world is likely to be a seething cauldron of international hatred for some decades, and it will be difficult and perhaps impossible for the United States to escape in the future from the entanglements of this world crisis."

SAYS BELGIANS REVOLTED

Angered by Demands to Work in Germany.

London, Dec. 4.—Two Belgians who have arrived at Sluis, Holland, from Ghent, report that there was a revolt in Antwerp on November 30, in which between two and three hundred inhabitants and many German soldiers are said to have been killed, according to a Reuter Amsterdam dispatch today quoting a Sluis correspondent.

The report says the revolt was due to demands upon the inhabitants for work in Germany.

Lloyd-George Has Resigned British War Cabinet Totters

London, Dec. 3.—The political crisis has become acute. It is stated in well-informed quarters that David Lloyd-George, the war secretary, has tendered his resignation which has not yet been accepted.

Premier Asquith has decided to advise the King to consent to the reconstruction of the government. This was officially announced tonight.

The statement reads: "The prime minister, with a view to the most effective prosecution of the war, has decided to advise his Majesty the King to consent to the reconstruction of the government."

Premier Asquith left town yesterday, but returned this morning and throughout the day there have been consultations and meeting of party leaders at the premier's residence.

Mr. Lloyd-George had a long consultation with the premier this afternoon. Other visitors were A. Bonar Law, a secretary of the colonies and the Marquis of Crew, lord president of the council.

Perhaps the most important significance was attached to the fact that Sir Edward Carson and Mr. Law appeared together and addressed a meeting of the Unionist committee, while the Earl of Derby, under secretary for war, had a long interview with Mr. Lloyd-George.

It is understood no official announcement will be made tonight, but that Premier Asquith will see the King again tomorrow morning and thereafter make a statement in the House of Commons in explanation of the situation.

Thus far it appears no arrangement has been made for Secretary Lloyd-George to see the King, which would indicate that at the present moment there is some prospect that the crisis will be surmounted with the complete collapse of the coalition Cabinet and without the resignation of Mr. Lloyd-George.

UNCLE SAM TO BUILD SHIPS

Daniels May Ask to Enlarge New York Navy Yard.

Washington, Dec. 4.—Should private builders fail to submit acceptable bids for the four battle cruisers, for which proposals will be opened December 6, Secretary Daniels probably will ask Congress for an additional appropriation to install an other capital shipbuilding slip at the New York navy yard.

Rear Admiral Harris, chief of yards and docks, was directed today to investigate conditions at the New York yard, after a delegation of Congressmen and business men from New York and Brooklyn requested Secretary Daniels to build a slip there.
